

Automated Triage & Threat Analysis

Upload suspicious executable files or network PCAP captures for automated feature extraction and threat detection.

Static File Analysis

Inspect binaries, hashes, and structure

Click to select file

Supports .exe, .dll, etc.

Analyze File

Network PCAP Triage

Analyze network traffic captures

Click to select PCAP file

Supports .pcap, .pcapng

Analyze Traffic

Automated Triage & Threat Analysis

Upload suspicious executable files or network PCAP captures for automated feature extraction and threat detection.

Malware Analysis Assistant v1.0

[API Docs \(Swagger\)](#)

Inspect binaries, hashes, and structure

Click to select file

Selected: ..txt

Analyze File

Analyze network traffic captures

Click to select PCAP file

Selected: epmd.pcap

Analyze Traffic

Analysis Results

```
{
  "pcap_file": "epmd.pcap",
  "network_summary": {
    "total_packets": 10,
    "protocols": [
      "TCP"
    ],
    "source_ips": [
